Corporate Rule Book & Operating Policy

Official operating framework, 50/50 milestone payment terms, and delivery standards of RHD Softwaresolutions LLP.

Effective: October 2026 **Governance: v3.1 Production** **Jurisdiction: Guwahati / Golaghat, Assam**

01. Corporate Identity & Accreditation

RH Dynamics operates legally and commercially under RHD Softwaresolutions LLP, incorporated under the Limited Liability Partnership Act 2008, Ministry of Corporate Affairs, Government of India.

- LLPIN: ACN-1931
- National Accreditation: Recognized under Startup India (DPIIT Certificate)
- MSME Category: Registered Micro, Small & Medium Enterprise

02. How Deals Are Initialized (Project Onboarding Protocol)

To guarantee total architectural clarity and eliminate speculative scope creep, every commercial engagement follows our 4-step onboarding protocol:

1. Discovery & Architectural Audit: Comprehensive technical consultation via Phone, WhatsApp, Google Meet, or in-person at our Guwahati or Upper Assam hubs.
2. Formal Statement of Work (SOW): A legally binding technical blueprint specifying user stories, database schemas, third-party APIs, and deployment milestones.
3. Mutual NDA & Contract Execution: Both parties execute non-disclosure and intellectual property agreements.
4. Prepaid Sprint Mobilization: Work commences strictly upon receipt of the agreed 50% upfront sprint mobilization fee.

03. Prepaid Milestone & Commercial Structure

RH Dynamics strictly enforces a milestone-driven commercial structure:

- Milestone 1 (50% Advance): Mobilizes software architects, database designers, and full-stack developers. Covers environment containerization, core APIs, and UI engineering.
- Milestone 2 (50% Final Settlement): Invoiced upon formal User Acceptance Testing (UAT) sign-off. Authorizes live DNS cutover, cloud provisioning, and private repository ownership.

For RH CORE™ SaaS Subscriptions (Hospital HSMS & LIS): Billed in advance on a recurring monthly or annual basis. Cloud hosting, security updates, and ABDM patches are included.

04. Engineering Sprints & UAT Sign-Off

All engineering adheres to Agile two-week sprint reviews. Clients are provided an authenticated staging environment for testing.

- Formal UAT Sign-Off: Client has 10 business days to test and confirm functional compliance against the SOW.
- 30-Day Post-Launch Warranty: Every custom deployment includes 30 days of unconditional, zero-cost bug remediation for reproducible errors.

05. Code Base Sovereignty & Cloud SaaS Models

- Custom Software Sovereignty: For bespoke software, clients receive complete IP ownership, Docker manifests, and private GitHub repository transfers upon final milestone settlement.
- RH CORE™ Cloud SaaS: For healthcare centers choosing our managed hospital software (HSMS/LIS), platforms are licensed as fully managed cloud services with 99.9% uptime.

06. Service Level Agreement (< 2-Hour SLA)

We commit to an uncompromised < 2-Hour SLA for critical production incidents. Our SLA applies to clients worldwide, across India, and across all districts of Assam.

- Critical Severity: < 2-Hour triage and developer mobilization.
- Dispatch Channels: Direct Phone, dedicated WhatsApp business escalation, Google Meet, or in-person engineering dispatch across Assam.

07. Client Confidentiality & Mutual NDA

We enforce strict competitor confidentiality. We will never share client technical architectures, proprietary business logic, patient databases, or trade secrets with competitors or unauthorized parties.

08. Dispute Resolution & Jurisdiction

This operating policy and all commercial contracts are governed by the laws of India. Any unresolved legal dispute shall be subject to the exclusive jurisdiction of the competent courts in Guwahati or Golaghat, Assam, India.
